# 02 Type of Environmental Labelling

## Type I – Environmental Labelling (ISO 14024)

A label require independent third-party certification for products and services that environmentally friendly. There are now more than 30 labels all over the world.

For example

## Type II – Environmental Labelling (ISO 14021)

A label that the manufacturer, distributor or exporter self-declared environmental claim. There is no central organization to take care of it. They shall prepare the evidences for reference when examined.

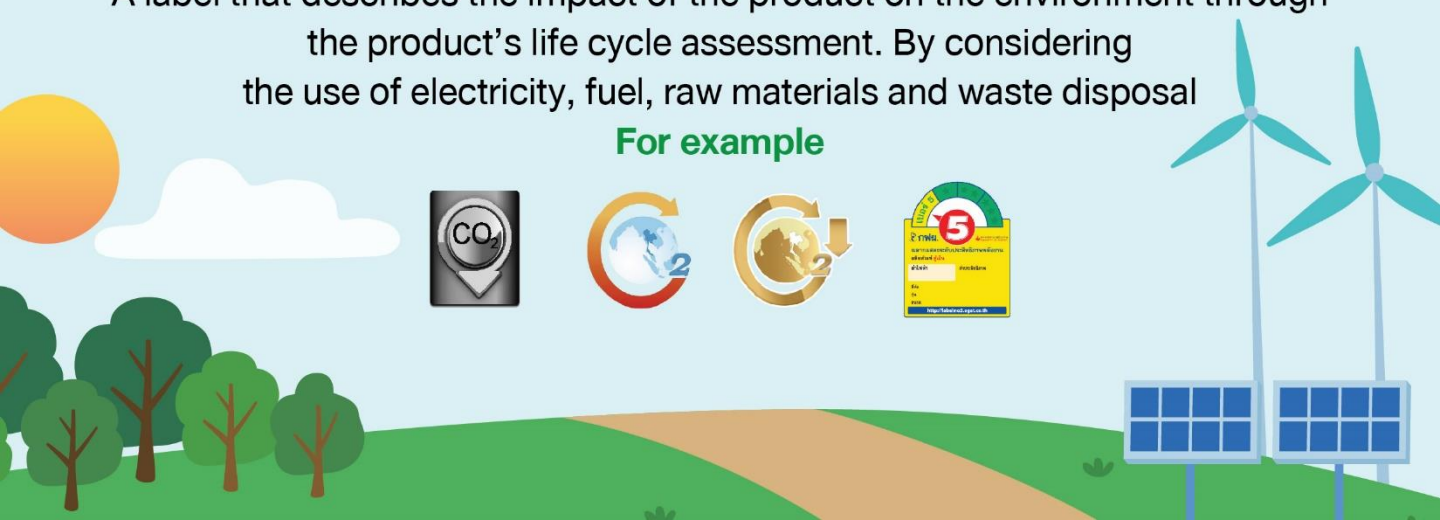

For example

## Type III – Environmental Labelling (ISO 14025)

A label that describes the impact of the product on the environment through the product's life cycle assessment. By considering the use of electricity, fuel, raw materials and waste disposal

For example

# 03

## How good are Green Label products and services?

Environmental Responsibility Mark

### Quality

The quality is comply with Thai Industrial Standards (TIS) or ISO or other relevant standards.

### Safety

Because the contamination of harmful substances such as heavy metals, carcinogens are controlled.

### Circular Economy

Because of the efficiently use of natural resources, raw material, control production process, usage, and waste management.

### Reduce greenhouse gas emissions

that affect climate change

ENVIRONMENT  
INSTITUTE

# Construction materials

Recycle  
materials

Do not use ozone  
depleting substances

Control the amount of  
heavy metal contamination  
and carcinogens.

Transportation and  
installation instructions  
are included.

Designed to focus  
on saving water

ฉลากเขียว  
Green Label

TEI  
THAILAND  
ENVIRONMENT  
INSTITUTE

# Office supply products

Renewable  
material

Safe from harmful substances  
such as heavy metals,  
volatile organic compounds.

Can be reused  
or recycled

ฉลากเขียว

INSTITUTE

# Electronics appliances

Energy saving  
(according to the electricity  
saving label No. 5)

Do not use ozone  
depleting substances

It is electrically safe.

There is a waste  
take-back of  
expiration date

Do not use  
harmful substances

ฉลากเขียว  
Green Label

TEI THAILAND  
ENVIRONMENT  
INSTITUTE

# Home & Living products

Control the amount of heavy metal contamination and carcinogens.

The paints used do not contain heavy metals.

Contains substances that do not cause irritation

Can be biodegradable, such as cleaning agents.

Contains a mixture of recycled materials.

ฉลากเขียว  
Green Label

TEI THAILAND  
ENVIRONMENT  
INSTITUTE

# Vehicles & accessory

It has an environmentally friendly carbon dioxide emission rate.

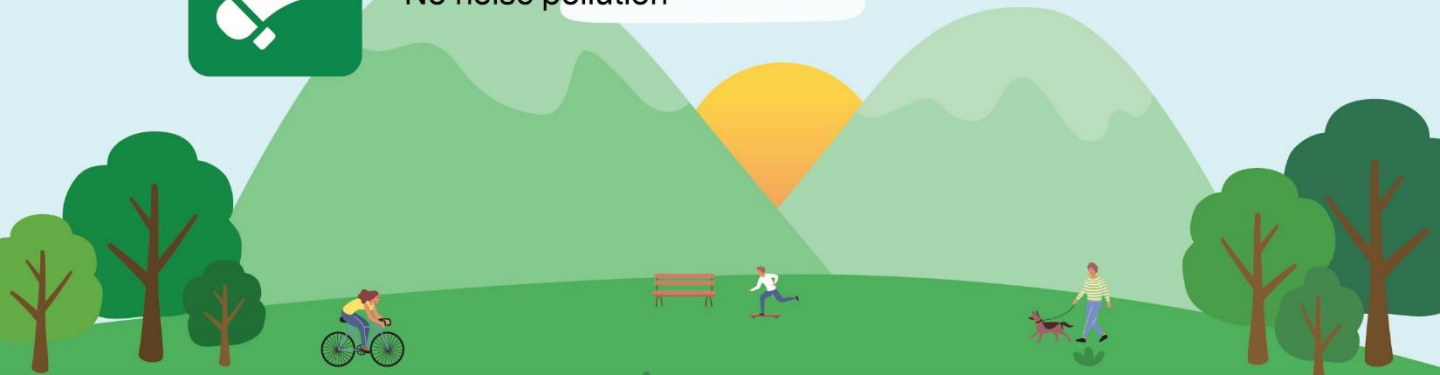

The company has a policy to control the green procurement of parts and raw materials. The parts are therefore free of prohibited substances and can be recycled.

The refrigerant used do not Ozone-Depleting (Ozone Depletion Potential: ODP = 0) and low global warming potential

No noise pollution

ฉลากเขียว  
Green Label

TEI THAILAND  
ENVIRONMENT  
INSTITUTE

# Services

Use products that certified with green labels.

Accredited for quality management system (ISO 9001) and environmental management system (ISO 14001)

There are guidelines for employees to separate waste and brought into the recycling process.

Legal employment

There are guidelines for employees to use resources cost-effectively.
